Royal Boskalis Westminster N.V. (Boskalis) has acquired two contracts in the United Kingdom and Sweden with a combined value of approximately EUR 70 million.

In the UK Boskalis is to build a breakwater in Clacton-on-Sea for Tendring District Council over a distance of five kilometers between Clacton Pier and Holland Haven. The breakwater will consist of 23 stone groynes with sand fill to create beaches in between. Boskalis will execute the project through the VBA JV Ltd (a consortium of Volker Stevin, Boskalis Westminster and Atkins). Work is scheduled to begin this summer and will be complete late 2015. Two medium-sized trailing suction hopper dredgers will be deployed on this project, with all the stone work being performed by dry equipment.

In Sweden a joint venture of Boskalis and Züblin Scandinavia AB has won a contract from Trafikverket Göteborg for the design and construction of the Marieholm Tunnel and construction of quay walls in the city of Gothenburg. This new traffic tunnel under the Göta Älv River will connect the urban districts of Marieholm and Tingstad in Gothenburg. The Design & Construct contract runs until end-2020. For the realization of this project Boskalis will dredge a trench with a depth of around 20 meters into which the tunnel will be submerged, install the sand beneath and alongside the submerged tunnel and install a layer of rubble to protect the tunnel roof.

Royal Boskalis Westminster N.V. is a leading global services provider operating in the dredging, maritime infrastructure and maritime services sectors. The company provides creative and innovative all-round solutions to infrastructural challenges in the maritime, coastal and delta regions of the world with the construction and maintenance of ports and waterways, land reclamation, coastal defense and riverbank protection. In addition, Boskalis offers a wide variety of marine services and contracting for the offshore energy sector including transport, logistics and installation (through Boskalis Offshore and Dockwise) and towage and salvage (through SMIT). It also has a strategic partnership in terminal services (Smit Lamnalco). With a versatile fleet of over 1,000 units Boskalis operates in around 75 countries across six continents. Including its share in partnerships, Boskalis has 11,000 employees.
