Boskalis and Van Oord reinforce weak northern stretch of Dutch coastline

The Hollands Noorderkwartier Regional Water Board and the Department of Public Works and Water Management intend to award the Van Oord (50%) - Boskalis (50%) joint venture a contract to reinforce and maintain the Hondsbossche and Pettemer Sea Defence from Petten to Camperduin, the northern stretch of the Dutch coastline.

The contract with a value of approximately EUR 140 million comprises the construction and maintenance of the new sandy coastline for 20 years. The project is part of the second national High Water Protection Program. The contract will be signed on 11 December 2013.

The project will commence early 2014 and will encompass sand replenishment for the construction of a beach and dunes. The new coastal area offers room for nature and recreation. After completing the project on 31 December 2015, the Van Oord - Boskalis joint venture will be responsible for maintaining the coastline for another 20 years. The replenishment activities will be carried out with four trailing suction hopper dredgers depositing 40 million cubic meters of sand sourced from sea.

More information about the project will be available after signing the contract at 11 December.

This is an English translation of the Dutch press release. In the event of any disparity between the Dutch original and this translation, the Dutch text will prevail.

Royal Boskalis Westminster N.V. is a leading global services provider operating in the dredging, maritime infrastructure and maritime services sectors. The company provides creative and innovative all-round solutions to infrastructural challenges in the maritime, coastal and delta regions of the world with the construction and maintenance of ports and waterways, land reclamation, coastal defense and riverbank protection. In addition, Boskalis offers a wide variety of marine services and contracting for the offshore energy sector including subsea, heavy transport, lifting and installation (through Boskalis Offshore and Dockwise) and towage and salvage (through SMIT). It also has a strategic partnership in terminal services (Smit Lamnalco). With a versatile fleet of over 1,100 units Boskalis operates in around 75 countries across six continents. Including its share in partnerships, Boskalis has more than 11,000 employees.
