BOSKALIS ENERGY SOLUTIONS

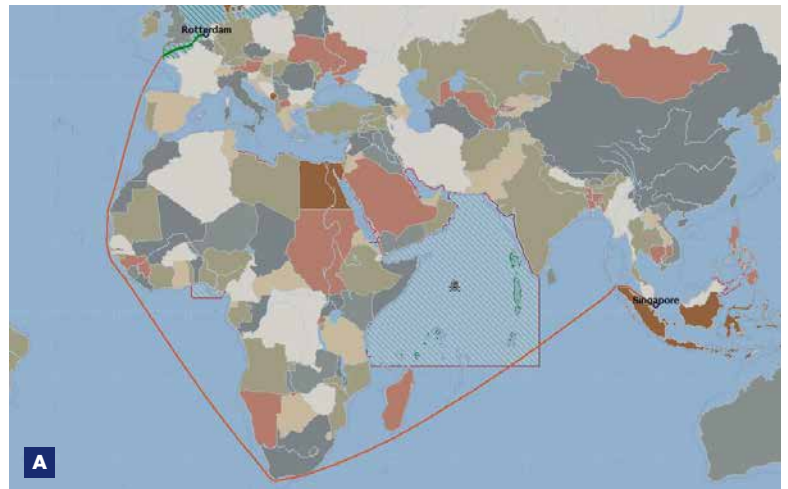

Boskalis is a leading global dredging and marine expert. With safety as our core value we provide innovative, sustainable and all-round solutions for our clients in the energy market. Realizing projects in remote locations with a heightened environmental focus is one of our specialties. Under brands such as Boskalis, Dockwise, SMIT, Fairmount, VBMS and Smit Lamnalco we offer more services than any other company in our industry, making us your next one-stop solution provider. We support the development, construction, maintenance and decommissioning of oil and gas import and export facilities, fixed and floating exploration and drilling facilities, pipelines and cables and offshore wind farms.

TRANSPORTATION OF JACK-UP RIG ENSCO 122

In 2014, Enasco's latest jack-up newbuilding E122 was successfully transported by the vessel Forte from Singapore to Rotterdam. The rig was delivered from Keppel FELS and is an enhanced version of their Super A Class design. This is the third in a series for Enasco. Once delivered, we understand the rig was prepared in Rotterdam and has been successfully operating in the North Sea along with the first two jack-up rigs in the series (Enasco 120 & Enasco 121).
