## ROWAN GORILLA III TRANSPORTATION OF JACK-UP RIG

### BOSKALIS ENERGY SOLUTIONS

Boskalis is a leading global dredging and marine expert. With safety as our core value we provide innovative, sustainable and all-round solutions for our clients in the energy market. Realizing projects in remote locations with a heightened environmental focus is one of our specialties. Under brands such as Boskalis, Dockwise, SMIT, Fairmount, VBMS and Smit Lamnalco we offer more services than any other company in our industry, making us your next one-stop solution provider. We support the development, construction, maintenance and decommissioning of oil and gas import and export facilities, fixed and floating exploration and drilling facilities, pipelines and cables and offshore wind farms.

### TRANSPORTATION OF JACK-UP RIG ROWAN GORILLA III

In 2015, the jack-up rig Rowan Gorilla III was successfully transported by the vessel Target from Trinidad for discharge offshore U.S. Gulf in West Delta 42. The Rowan Gorilla III was transported with a leg length of over 500'. While the rig was working in Trinidad, it suffered damage to one of the legs, making it unable to fully retract the spud can into the leg. As a result, the total protrusion resulted in an increased draft that was too large to be discharged in the sink hole in Pascagoula. Luckily, good weather prevailed and we were able to discharge the rig offshore in (block) West Delta 42 without delay.

### FEATURES

Company	Rowan Companies
Location	Trinidad to United States Gulf of Mexico
Period	2015
Cargo	Jack-up rig Rowan Gorilla III
Vessel	Target
